BRIEFLY DESCRIBE THE PROPOSED WORK:
 (THIS SECTION SHALL BE COMPLETED)

BACKFLOW DEVICE TEST REPORTS are required to be submitted at installation and every 2 years thereafter. Forms are available at the City Hall Water Department

Air gap separations shall be inspected at the time of installation and every twelve months thereafter.

Double check valve assemblies shall be inspected and tested for tightness at the time of installation and at least every twelve (12) months thereafter. They shall be dismantled, inspected internally, cleaned, and repaired whenever needed and at least every 60 months.

Dual check valves shall have their cartridge valve components replaced at intervals not to exceed three years.

Reduced pressure principal backflow prevention devices shall be inspected and tested for tightness at the time of installation and be dismantled, inspected internally, cleaned, and repaired whenever needed and at least every 60 months.

Inspections are required. Please call 24 hours in advance to 316-788-6632, Option 2.

I acknowledge that the \$25.00 application fee is non-refundable.
