

# Floodplain Development Permit Application for City of Derby

This is an application packet for a Floodplain Development Permit. Certain sections are to be completed by the Applicant, and certain sections are to be completed by the local Floodplain Administrator (FPA).

The National Flood Insurance Program (NFIP) provides flood insurance to individuals at much lower premiums than could otherwise be purchased through private insurers, and makes certain federal monies available to local communities. In order for citizens to be eligible for the national flood insurance rates, or for communities to receive certain kinds of federal monies, the community must agree to meet minimum floodplain standards. This application packet is a tool to ensure that the minimum standards are met.

In a participating NFIP community, flood insurance policies can be purchased from any local insurance agent at the national rate. Even though the policy may be issued as if it were coming from the insurance company you deal with, it is actually a Federal NFIP policy printed on the insurance agency's letterhead. The rates are determined by the flood risk zone in which you live and by the elevation of the lowest floor of your home, not by the insurance company, and should be the same regardless of which agent or agency sells you the insurance.

You may buy flood insurance for your own peace of mind, you may be required to buy it before a lending institution will make or refinance a loan, or you may not be buying flood insurance at all. Whatever the case, if the property which you propose to develop is located within a "Special Flood Hazard Area" on a flood map issued by the Federal Emergency Management Agency (FEMA), you **MUST** obtain a Floodplain Development Permit prior to beginning the project. This is a requirement of Chapter 17.08 of the Derby Municipal Code, and there are penalties for failing to do so.

Floodplain Development Permits are ONLY required for developments in areas designated as "Special Flood Hazard Areas" of FEMA-issued flood maps. Flood maps can be requested from [michaelwilson@derbyweb.com](mailto:michaelwilson@derbyweb.com), or online at the FEMA website ([www.FEMA.gov](http://www.FEMA.gov)).

If you are proposing a development of any kind (constructing a new building, adding on to an existing building, clearing land, placing fill, grading land, mining, dredging, drilling, etc...) in a floodplain, you **MUST** submit Section I of this application for a Floodplain Development Permit to your local FPA. Depending upon the type of development you are proposing, additional forms **may** be required. For example, all new buildings in a Special Flood Hazard Area require an Elevation Certificate to document that the lowest floor of the building is elevated to a certain height relative to the anticipated flood crest of the "base flood" event. The Elevation Certificate and other forms are provided in Section III of this application packet, **but should only be completed if they are required by the FPA for the proposed development.**

Typically, the Applicant completes Section I of this packet and submits the information to the local FPA. The FPA reviews the submission and determines whether or not additional information is needed. If it is, the FPA will request the additional information from the Applicant. Once all required materials have been submitted, the FPA will make a permitting decision and either issue or deny the requested Floodplain Development Permit. (Denied permits may be appealed per the provisions of 17.08.080 – Floodplain Management Variance Procedures)

The Applicant should understand that a Floodplain development Permit is only a permit to complete the proposed development. It is a permit to, for example, build a house, construct a baseball field, install a drainage ditch or septic system or grade a parcel of land. Before the house can actually be occupied, or the developed land used, a Compliance Certificate must be issued by the local FPA. The FPA will perform an inspection after the project is completed, or perhaps several inspections throughout the progress of the project, to make sure that the development is compliant with the requirements of the local Flood Damage Prevention Ordinance. Once the Compliance Certificate has been issued, the process has been completed.

# INSTRUCTIONS FOR COMPLETION

## SECTION I

### General Information

Self-explanatory. Note the last two items under this heading.

### Owner Information

List the contact information for the owner(s) of the property where development is proposed. All owners of the property must sign the application.

### Applicant Information

If you are applying for this development permit, but are not the owner of the property, list your contact information here. If you are the property owner, leave this section blank.

### Project Information

Check the box(es) beside the type of development that is being proposed. Note that some types of activity require the estimated cost of the proposed project to be disclosed so the Floodplain Administrator (FPA) can determine whether or not the improvement is a "substantial improvement."

### Signature

Print your name, sign your name, and date the application.

## SECTION II

### Floodplain Information

The FPA will determine – for the sole purpose of administering the local Flood Damage Prevention Ordinance – the position of the proposed development relative to community floodplains and floodways. This determination is not binding at any lending institution or with any insurance agency, but is used to determine whether or not a Floodplain Development Permit and/or any other forms are required prior to commencing the proposed project.

Section II requires a map and panel number(s), a listing of the flood source for the proposed development, and contains a checklist of additional documents required for the FPA to make an informed permitting decision.

If any of the additional documentation is required, the FPA is to notify the applicant, allow a reasonable length of time for submission of the documents, and then review all submissions to determine whether or not the permit will be issued.

## SECTION III

### Forms

Templates for forms that may be required are provided in this Section.

## SECTION IV

### Permit Determination

The FPA will indicate whether or not the proposed development is conformant with the requirements of Chapter 17.08 of the Derby Municipal Code, and whether or not the requested permit is issued. If the decision is to NOT issue the permit, the FPA will provide an explanation of the perceived deficiencies to the Applicant.

## SECTION V

### Certificate of Compliance

The FPA will indicate the "As-Built" lowest floor elevation for structural developments, list any inspections that have been performed, and issue the Certificate of Compliance to the Applicant if appropriate.

FLOODPLAIN DEVELOPMENT PERMIT  
APPLICATION FORM FOR CITY OF DERBY

OFFICE USE ONLY	
Date Received:	_____
File Number:	_____

**SECTION I: Applicant and Project Information**

**GENERAL INFORMATION**

1. No work of any kind may begin in a floodplain area designated as A, A1-30, AE, AO, AH, or B until a floodplain development permit is issued.
2. The permit may be revoked if any false statements are made in this application.
3. If revoked, all work must cease until a permit is re-issued.
4. The development may not be used or occupied until a **Certificate of Compliance** is issued.
5. The permit will expire if no work is commenced within 6 months of the date of issue.
6. The permit will not be issued until any other necessary local, state or federal permits have been obtained.
7. By signing and submitting this application, the Applicant gives consent to the local Floodplain Administrator or his/her representative to make reasonable inspections prior to the issuance of a **Certificate of Compliance**.
8. By signing and submitting this application, the Applicant certifies that all statements contained in SECTION I of the application, and in any additional attachments submitted by the Applicant, are true and accurate.

**OWNER INFORMATION**

Property owner(s): \_\_\_\_\_  
Telephone number: \_\_\_\_\_  
Fax number: \_\_\_\_\_

Mailing address: \_\_\_\_\_  
e-mail address: \_\_\_\_\_

Signature(s) of property owner(s) listed above<sup>1</sup>  
\_\_\_\_\_  
\_\_\_\_\_

<sup>1</sup>Attached forms if there are additional property owners. This permit application will not be accepted without the signature of all property owners. The signature is an acknowledgement and consent to this floodplain development permit application.

**APPLICANT INFORMATION**

Applicant: \_\_\_\_\_  
Telephone number: \_\_\_\_\_  
Fax number: \_\_\_\_\_

Notes:

Signature of applicant listed above  
\_\_\_\_\_

**PROJECT INFORMATION**

Project \_\_\_\_\_  
 Address \_\_\_\_\_  
 \_\_\_\_\_

Lot \_\_\_\_\_ Block \_\_\_\_\_  
 Subdivision \_\_\_\_\_  
 Legal Description *(Attach to this document)* \_\_\_\_\_

**A. Structural development** *(Please check all that apply.)*

Type of Structure

- Residential (1 to 4 families)
- Residential (More than 4 families)
- Non-Residential
  - Elevated
  - Floodproofed
- Combined Use (Residential and Non-Residential)
- Manufactured (mobile) Home
  - Located within a Manufactured Home Park
  - Located outside a Manufactured Home Park

Type of Structural Activity

- New Structure
- Addition to Existing Structure<sup>2</sup>
- Alteration of Existing Structure<sup>2</sup>
- Relocation of Existing Structure<sup>2</sup>
- Demolition of Existing Structure
- Replacement of Existing Structure

<sup>2</sup>Estimate Cost of Project \_\_\_\_\_

**B. Other Development Activities**

- Accessory Structure
- Excavation (not related to a Structural Development listed in Part A.)
- Clearing
- Placement of fill material
- Grading
- Mining
- Drilling
- Dredging
- Watercourse alteration
- Drainage improvement (including culvert work)
- Individual water or sewer system
- Roadway or bridge construction
- Other development not listed above (specify) \_\_\_\_\_

<sup>2</sup>If the value of an addition or alteration to a Structure equals or exceeds 50% of the value of the structure before the addition or alteration, the entire structure must be treated as a substantially improved structure. A relocated structure must be treated as new construction.

**SIGNATURE**

*I certify that to the best of my knowledge the information contained in this application is true and accurate.*

FEDERAL EMERGENCY MANAGEMENT AGENCY  
NATIONAL FLOOD INSURANCE PROGRAM

# FLOODPROOFING CERTIFICATE

## FOR NON-RESIDENTIAL STRUCTURES

The floodproofing of non-residential buildings may be permitted as an alternative to elevating to or above the Base Flood Elevation; however, a floodproofing design certification is required. This form is to be used for that certification. Floodproofing of a residential building does not alter a community's floodplain management elevation requirements or affect the insurance rating unless the community has been issued an exception by FEMA to allow floodproofed residential basements. The permitting of a floodproofed residential basement requires a separate certification specifying that the design complies with the local floodplain management ordinance.

BUILDING OWNER'S NAME

### SECTION I – FLOOD INSURANCE RATE MAP (FIRM) INFORMATION

Provide the following from the proper FIRM:

COMMUNITY NUMBER	PANEL NUMBER	SUFFIX	DATE OF FIRM INDEX	FIRM ZONE	BASE FLOOD ELEVATION (In AO Zones, Use Depth)
------------------	--------------	--------	--------------------	-----------	--

### SECTION II – FLOODPROOFING INFORMATION (By a Registered Professional Engineer or Architect)

**Floodproofing Design Elevation Information:**

Building is floodproofed to an elevation of \_\_\_\_\_ Feet NGVD. (Elevation datum used must be the same as that on the FIRM)

Height of floodproofing on the building above the lowest adjacent grade is \_\_\_\_\_ feet.

*(NOTE: for insurance rating purposes, the building's floodproofed design elevation must be at least one foot above the Base Flood Elevation to receive rating credit. If the building is floodproofed only to the Base Flood Elevation, then the building's insurance rating will result in a higher premium.)*

### SECTION III – CERTIFICATION (By a Registered Professional Engineer or Architect)

**Non-Residential Floodproofed Construction Certification:**

*I certify that, based upon development and/or review of structural design, specifications, and plans for construction, the design and methods of construction are in accordance with accepted standards of practice for meeting the following provisions:*

The structure, together with attendant utilities and sanitary facilities, is watertight to the floodproofed design elevation indicated above, with walls that are substantially impermeable to the passage of water.

All structural components are capable of resisting hydrostatic and hydrodynamic flood forces, including the effects of buoyancy, and anticipated debris impact forces.

*I certify that the information on this certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.*
